**Action Planning:**

Which direction would you like to follow to investigate or plan quality improvement at your site? (Data, Using the QSA, something else?)
What aspects of your program would you like to assess, reflect and improve? (Use the QSA for ideas!)
Who do you need to engage to plan this process?
What is a rough timeline of when you would like to start and finish this process?
What ideas do you have now, and who do you want to follow up with for more advice?
